PARTICIPATION IN MAJOR COURT HEARINGS

In re M. K. (Pittsfield, MA, USA): Consultant and expert medical witness to the case of L. S., an intellectually-disabled patient with schizophrenia and chronic breathing issues whose guardians requested that a (clinically-contraindicated) tracheostomy and medically-provided nutrition and hydration not be initiated due to the patient's previously expressed wishes and future quality of life. Berkshire County Superior Court Judge accepted expert recommendation that withholding clinically non-beneficial and/or harmful interventions was ethically justifiable in such circumstances. Berkshire County Superior Court, Pittsfield, MA, USA (2019).

In re L. S. (Pittsfield, MA, USA): Consultant and expert medical witness to the case of L. S., a neurologically-devastated patient whose family requested that medically-provided nutrition and hydration (MPNH) be non-voluntarily withdrawn (in absence of clinical disproportion or acute and life-threatening illness) to allow for starvation/dehydration as the cause of death. Berkshire County Superior Court Judge accepted expert recommendation that MPNH should not be withdrawn in such circumstances. Berkshire County Superior Court, Pittsfield, MA, USA (2017-18).
